

Solutions For a New Economy

AFPEO BES/HICI administers the NETCENTS contract centrally, but authorizes decentralized ordering using AFWay to conduct solicitations and issue orders directly with the prime contractors

Allows local Contracting Officers to use their local processes for order execution and life-cycle management of their respective order(s)
AFPEO BES/HICI is a mandatory recipient of copies of all orders and modifications – send to netcents@us.af.mil

Ordering

AFWay provides a virtual communications environment for conducting solicitations and enables management of IT products and solutions offered under the NC-2 contract.

AFWay Processes

- Login, registration and restricted access via AFWay (<https://www.afway.af.mil>)
- Access to NETCENTS-2 specific Contractor Websites Government Purchase Card (GPC) Web Ordering.
- RFQ and RFP Process for communicating between Government and contractor.

NETCENTS-2

The **NETCENTS-2** family of contracts has a ceiling of \$24.2B; it provides highly flexible contract vehicles delivering capabilities across the entire range of communication, networking and telephony product and IT technology solutions domains.

Enabling Air Force, DoD and other Federal Agencies to effectively and efficiently implement Net-Centric Solutions worldwide

NETCENTS-2 supports missions that require innovative communications, Information Technology solutions, and products for the right information, in the right format, to the right place, at the right time – efficient in peace...effective in war; ensuring success across the spectrum of operations (e.g., Iraq and Afghanistan, Overseas Contingency Operations (OCO), as well as support functions).

PROGRAM SUCCESS

NETCENTS-2 contract vehicles are designed to meet the challenges through the purposeful and dedicated use of innovative business practices and tools that establish teaming relationships between the Government and industry. These contracts will provide Network-Centric Information Technology, Networking, Telephony and Security (NCITNTS), Voice, Video and Data Communications Commercial-off-the-Shelf (COTS) products, and system solutions to satisfy the Combat Support (CS), Command and Control (C2), and Intelligence Reconnaissance and

Surveillance (ISR) requirements of the Air Force and Department of Defense (DoD) worldwide. The contracts support the Global Information Grid (GIG) architecture; Defense Information Infrastructure (DII), Air Force, and Defense Communications Systems info-structure for computer networks and telecommunications network mission area, help the Department of Defense (DoD) achieve information superiority through Joint Vision 2020 and support the Systems Engineering Process (SEP) as specified in the DoD 5000-series. The contracts support peacetime, deployed ruggedized environments, as well as wartime conditions.

Additionally, they provide solutions for a full range of security domains (e.g., Unclassified through Top Secret/Collateral classifications, plus categories (e.g., special category (SPECAT)) and compartments (e.g., Special Compartmented Information (SCI))).

IT Products and Solutions

NETCENTS-2

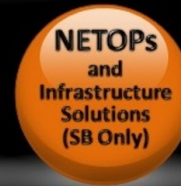

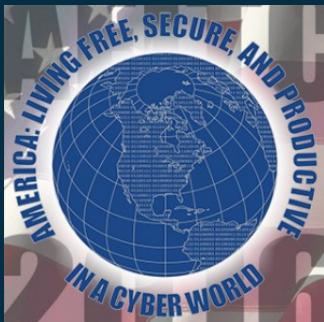

Netcentric Products
Awarded Nov 2013

Application Solutions
(Small Business)
Awarded Jun 2012

NetOps
(Small Business)
Awarded Apr 2015

NetOps
(Full and Open)
Awarded May 2015

Application Solutions
(Full and Open)
Awarded Mar 2015

NETCENTRIC PRODUCTS

Program Manager: Mr. Johnnie Mize

This Full and Open Contract provides Air Force customers with a full range of innovative, reasonably priced, world-class information technology products to support the full spectrum of netcentric operations and missions. The netcentric products provided will combine with joint and interagency assets and capabilities from land, sea, air, space, and cyberspace components, as well as coalition and allied capabilities, to create an interoperable force capability.

Scope of Work:

Net-Centric Products (COTS Only): Network Equipment, Servers/Storage, Peripherals, Multimedia, Software, Identity Management/Biometric Hardware and associated Software, Delivery, Warranty and Maintenance.

With a Contract Value of \$6.9 Billion, Netcentric Products currently has 24 contract vendors:

FedStore	Iron Bow	Integration Technologies Group
Intelligent Decisions	Immix Technology	Dell Federal
World Wide Technology	M2 Technology	Harris IT
CDWG	Unicom Government	Sterling Computers
Ace Technology	GTRI	Force 3
Counter Trade Products	MicroTech	PCMG, Inc.
General Dynamics IT	Presidio Networked Solutions	Insight Public Sector
FCN	Red River	Blue Tech

NetOps and Infrastructure Solutions (Small Business)

Program Manager: Ms. Bernadette Hollinger

This program provides solutions to support network operations, core enterprise services, and infrastructure development and operations. This includes network management/defense, SOA infrastructure, enterprise level security/ management and implementation/operations.

With a Contract Value of \$5.79 Billion, NetOps (Small Business) currently has 17 contract vendors:

- | | |
|--------------------------|-------------------------|
| Abacus Technology | Intelligent Decisions |
| American Systems | Micro Technologies |
| Atlantic CommTech | Smartronix |
| BTAS | SNS Data Products Group |
| CDO Technologies | STG |
| Centech Group | Sumaria Systems |
| EPS | Technica |
| Epsilon System Solutions | Telos |
| Indus | |

NetOps and Infrastructure Solutions (Full and Open)

Program Manager: Ms. Bernadette Hollinger

This program provides Air Force customers with IT products such as Networking Management/Defense, SOA infrastructure support. Enterprise level security/management, and managed service/cloud computing.

With a Contract Value of \$5.79 Billion, NetOps (Full and Open) currently has 18 contract vendors:

- | | | |

PM Professional Development

Effective Program Management is essential in today's business world. Organizations are faced with increasing pressure to complete program projects within shorter time frames and with smaller budgets than in the past. Professionals need a feasible method to ensure that their programs are profitable and aligned with the strategic goals of their organization

Upcoming Events

- **The Air Force Information Technology & Cyberpower Conference ([AFITC](#))
August 28 – 30, 2017**

This year's venue is the Renaissance Montgomery Hotel and Spa, adjacent to the Convention Center, at the epicenter of all Montgomery, Alabama has to offer. Government per diem rates for the hotel are \$89/per day.

Link to registration is on the Air Force Portal (<https://www.my.af.mil/>) or <http://www.afitc-event.com/>
