CLOUD MANAGED SERVICES

We provide a range of cloud services to meet customer needs, including cloud consulting, managed services, and resale, providing full lifecycle management across AWS, Azure, and Google. Our cloud leadership position in U.S. Public Sector emanates from our MSP Program, rooted in a visionary and first-to-market approach. We possess competencies in Machine Learning, O365, and have ample past performance in DoD with U.S.

CYBERSECURITY

We work with leading technology partners to provide remote threat response and monitoring, penetration testing, incident response, breach detection, threat detection, active defense and hunting, vulnerability management, as well as governance, risk, and compliance. Our managed services focus on outcomes for cybersecurity operations, services, and Value-Added Resale.

MACHINE LEARNING

- Leading provider to DoD of Artificial Intelligence enabled video processing
- Transform data into mission intelligence
- Proficient in ML solutions in video, speech, language analysis, and vision.
