- DCAA Rates and Compliant Accounting System
- Headquarters: Chantilly, VA

USAF Small Business Enterprise Applications Solutions (SBEAS) Contract Overview

Purpose: The USAF SBEAS IDIQ Contract provides customers access to a wide range of Information Technology (IT) Network Centric services and solutions that support the full IT lifecycle. While SBEAS is preferred use for the Business Enterprise Systems (BES) Directorate, this contract vehicle may be used by all other MAJCOMS and other DoD agencies that support Air Force requirements.

Scope: The scope provides a comprehensive suite of IT and cybersecurity services and solutions to support all systems and software development requirements in a wide variety of environments and infrastructures; additional scope areas includes:

- Documentation, operations, deployment, cybersecurity, configuration management and training
- Commercial off-the-shelf (COTS) product management and utilization
- Network infrastructure and telecommunications
- Technology refresh, data, network and information services and IT program business analysis

Ordering Period: 19 December 2019 – 18 December 2029 with a contract Ceiling of \$13.4 Billion

SBEAS PMO Contact: AFLCMC.HIC.SmallBusiness@us.af.mil

- Close relationships with partners engaged in emerging technology research and implementation

Performance and Employee Satisfaction

- Multiple task order experience and qualifications, numerous tasks over \$10M annually with 100+ FTE's
- High CPARS on our programs; customer engagement by all levels of American Tech Solutions Leadership

American Tech Solutions' Capabilities in Support of the USAF SBEAS Contract Aligned to Our Customers' Diverse Requirements

Systems and Software Engineering

- Enterprise System Integration
- Web/App Design, Development, Management
- Agile Development
- Mobile Application Development
- DevSecOps App and Infrastructure Security
- UI/UX Design and Visualization
- Data Integration and Interoperability
- Business Process Automation
- Open-Source Development
- Application Consolidation
- Configuration Management
- Testing, Verification, Deployment

Operations and Maintenance

- Business Process Improvement and Alignment
- Lifecycle Software Services
- HW/SW Enterprise Sustainment and License Management
- Property, Inventory and Asset Management Systems
- ODC Procurement and Installation
- ROM Development

Network Infrastructure and Telecommunications

- Network Design and Engineering
- Competitive Local Exchange Carrier (CLEC)
- Dark Fiber Design/Build
- Fully Manage Networks: Direct Internet Access (DIA), Metro-Ethernet and Managed Wavelengths
- Asset Monitoring & Management
- Universal Communications as a Service (UCaaS)

Enterprise IT and Cybersecurity

- Data Center Operations
- Systems Consolidation, Modernization & Virtualization
- DoD Global Network Provisioning
- Enterprise Service Desk Tier 1-3
- Coalition Networks and MPE Integration
- Multi-Tiered/Domain Network Operation
- Common Operational Picture Fusion
- Air Operations Tactical Integration
- Information/Knowledge Management
- RMF/IA Certification and Accreditation/DCO Support
- C&A/A&A Processing and Implementation
- Cyber Incident Response
- REL DMZ Design, Engineering and Ops Support

Enterprise Plans, Programs, and Operations

- Data Sciences, Artificial Intel, Machine Learning
- C5ISR Support Systems
- Future Force Mod and Ops Planning
- Strategic Planning and Analysis
- Tech Briefings, Test Plans and Reports Development
- Technology Refresh, Reports and Proposals
- Live Virtual Constructive Gaming for Combat Systems
- Training/MESL Development and Deployment
- Modeling and Simulation
- Access Control Security Systems

Solutions, Integrity, Results
