Definitive Logic (DL) is dedicated to mission support and providing expert practitioners to solve problems at the intersection of business and technology. We align domain subject matter expertise with leading technologies to drive transformation across:

Financial Management

Leveraging leading commercial software and best practices to modernize Federal Financial Management business processes.

Human Capital

Transformational talent management. We are enabling a data-driven and frictionless automated workforce management.

Real Property & Asset Management

Accelerating the deployment of IT-enabled digital insight and decision support capabilities to manage a complex global physical footprint.

Acquisition

Bringing acquisition & contract data to the forefront for better buying power and advanced decision-making through the entire acquisition lifecycle.

Logistics

Mastering the supply chain process and integrating logistics, maintenance and financial data to better support the warfighter.

Emergency Management

Orchestrating complex data and systems in time-sensitive, mission-critical and disaster recovery settings.

“We Understand The Air Force Mission”

HQ AF A5/8 & SAF/FM
Program & Budget
Enterprise System

Modernizing the Air Force’s Planning, Programming and Budgeting systems with an integrated COTS platform.

Air Force Installation and Mission Support Center
Comprehensive Planning Platform

Digitizing and integrating Air Force Installation Master Plan data to drive scenario-based planning for more effective resource allocation decisions.

HQ Air Force A1
Oracle Human Capital Management (HCM) Pilot

Using Agile frameworks to configure Oracle HCM software to digitally transform Air Force Personnel Management.

EXCEPTIONAL IS OUR EXPECTATION

SBEAS SCOPE

This IDIQ includes the comprehensive suite of IT services and IT solutions to support IT systems and software development in a variety of environments and infrastructures. Additional IT services include, but are not limited to documentation operations, deployment, cybersecurity, configuration management, training, commercial off-the-shelf (COTS) product management and utilization, technology refresh, data and information services, information display services and business analysis for IT programs. This contract vehicle is available for use by all other Air Force MAJCOMs and other agencies that support an Air Force requirement.

To Start Ordering, You Can Scan The QR Code Below To Take You To The SBEAS Page.

OUR EXPERTISE

Cloud

Rapid delivery time to market, at lower cost with increased resiliency across the enterprise

App Dev

Leverage Agile and DevSecOps to enable faster deployment and improved customer experience

CIO Advisory

Advise CIOs on the strategic use of technology to enable the mission and support the business

Business Intelligence & Analytics

Modernizing & Integrating IT Systems through automation and transformation of data through visualization

Data Science

Leverage machine learning, artificial intelligence, and deep learning for mission success

Cybersecurity
