Adding the NETCENTS RSS Feed to Outlook

1. From the NETCENTS website, http://www.netcents.af.mil select the ABOUT US Tab at the top of the website.

2. Under the NEWS FEEDS Tab, right-click on next to NETCENTS (331). Then select Copy Link Address.
3. Open Outlook and right click on **RSS Feeds.** Then select Add a New RSS Feed and the New RSS Feed dialog box will display:
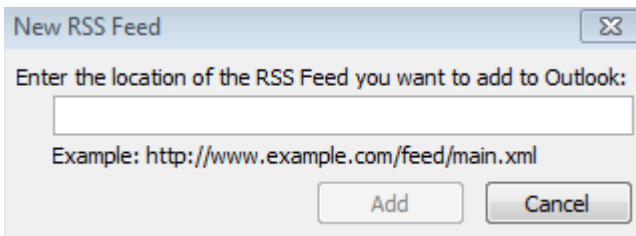

4. Right click on the box and paste the link that you copied from step 2 above. Once the link has been pasted into the box click on **Add** which will bring up the RSS Feed Options dialog box. You do not need to make any change on this box so just select **OK** which will close the box.
5. You should now see the RSS Feed on the Account Settings dialog box and you can now click the **Close** button.
6. You should then see that the **Air Force Network Centric Solutions News** was added to the Outlook **RSS Feeds**.
