USAF Small Business Enterprise Applications Solutions (SBEAS) Contract Overview

Purpose: The USAF SBEAS IDIQ Contract provides customers to access a wide range of Information Technology (IT) Network Centric services and solutions that support the full IT lifecycle. While SBEAS is preferred use for the Business Enterprise Systems (BES) Directorate, this contract vehicle may be used by all other MAJCOMS and other DoD agencies that support Air Force requirements.

Scope: The scope provides a comprehensive suite of IT and cybersecurity services and solutions to support all systems and software development requirements in a wide variety of environments and infrastructures; additional scope areas includes:
- Documentation, operations, deployment, cybersecurity, configuration management and training
- Commercial off-the-shelf (COTS) product management and utilization
- Documentation, operations, deployment, configuration management and training
- Technology refresh, data, network and information services and IT program business analysis

Ordering Period: 19 December 2019 – 18 December 2029 with a contract Ceiling of $13.4 Billion
