Life-Cycle Software Services

Systems Engineering & Integration

McCallie Associates, Inc. is a small disadvantaged business providing Life-cycle Software Services, Information Technology (IT) Technical Services, and Systems Engineering & Integration Services to Department of Defense (DoD) customers for over 37 years.

- Wholly-owned subsidiary of Alutiiq, LLC an Afognak Native Corporation subsidiary (Alaskan Native Corporation)
- SBA 8(a) Certified
- TS Facility Clearance
- Industry leading Deltek CostPoint accounting system
- 20+ years of cost contract performance
- Dedicated Recruiting Staff

We provide exemplary service by applying our core values of Integrity, Dedication, and Delivery. Our strength revolves around our ability to attract and retain quality employees we refer to as our Associates, and the use of high-performance teams backed by a corporate structure that enables our personnel to focus on the customer's objectives.

McCallie is an experienced provider of software and system engineers supporting Air Force Life Cycle Management Center (AFLCMC) contracts, modernizing and sustaining mission planning and command and control systems. We excel at building teams to bring the right capability to the customer and have strong working relationships with major DoD contractors, such as BAE Systems, Booz Allen Hamilton, General Dynamics, Leidos, Lockheed Martin, Northrop Grumman, Raytheon, and Unisys.

Why Partner with McCallie ...

We are a recognized performer that brings integrity, dedication, and delivery to achieve results:

"The McCallie engineers are highly skilled, very professional and some of the best in the business. They are key to the success of the program."

"McCallie provided superb support in the key roles of SME and product owner. Their work has helped shape key functional and technical aspects of the product. Willingness of McCallie personnel to provide a big picture view of the product and it's future is critical to long term program success."

Information Technology Services Advisory and Assistance Services

Information Technology (IT) Services: As an experienced provider of IT services to the DoD and NASA, McCallie has migrated systems to take advantage of technology advances, transitioned system security into the Risk Management Framework (RMF), maintained enterprise IT operations, migrated, consolidated, and virtualized databases, and provided user assistance at multiple tier levels within International Organization of Standards (ISO) and IT Infrastructure Library (ITIL) frameworks.

Advisory and Assistance Services: McCallie provides a variety of experts in operational/mission and functional areas to support DoD organizations to achieve mission and business effectiveness and efficiency. We have helped establish and streamline procedures, assess effectiveness, plan and execute training, including certification for critical positions, plan and execute joint level exercises, support security functions, provide programmatic technical support, and help plan and physically move operations to a new location. McCallie's core expertise includes strategic operations, nuclear, space, ballistic missile defense, and command and control.

Why Partner with McCallie ...

McCallie is a recognized performer providing World Class Results:

During McCallie's tenure leading the IT Capabilities Contract (ITCC) delivery team, staffing reviews using Gartner Assessment Criteria showed ITCC accomplished 40% more work per staff required based on the industry standard, while achieving customer satisfaction ratings classified as World Class by Gartner standards.

Two-time Supplier Excellence Award winner and a World Class Supplier awardee by Northrop Grumman.

Lockheed Martin Supplier of the Year awardee.

Quality Assurance Institute "Best of the Best" awardee, and Special Recognition in the IT Industry for statistical process controls in root cause analysis.
